STERILIZATION – DATA ON THE LABELS

The information about the sterilization method for the device is reported on the labels. The external cardboard box (first label in each of the following pages) indicates only the possible sterilization methods:

- **STERILE R:** sterilization by **irradiation** (Beta rays or Gamma rays according to the applicable sterilization method).

- **STERILE EO:** sterilization by **ethylene oxide**.

Always refer to device labels for information about the sterilization method.

For the information on applicable sterilization method for each device refer to Design Dossier.
